VAPOR STROBE
SPORT TRAINING EYEWEAR

IMPROVE YOUR REACTION

IMPROVE YOUR RESPONSE

BECOME A BETTER ATHLETE

WITHOUT STROBE [NORMAL VISION]

WITH STROBE

THE VAPOR STROBE CREATES AN AFFECT LIKE A STROBE LIGHT. WITH LENSES THAT SWITCH FROM BLOCKED TO CLEAR, AT VARIABLE RATES. BY NOT ALLOWING YOU TO SEE EVERYTHING, THE STROBE FORCES YOUR BRAIN TO ANTICIPATE WHAT WILL HAPPEN NEXT. USE VAPOR STROBE EVERY DAY TO IMPROVE REACTION AND RESPONSE.

**YOUR EYES TAKE IN MORE INFORMATION
THAN THE BRAIN CAN PROCESS**

THE CONTROLS

- M Mode**
- Press to turn on
- Hold 2 seconds to turn off

THE DISPLAY

When on, pressing **M** alternates between left lens [**L**], and right lens [**R**], and both lenses [**B**]

- L** Flashes on screen when turning on glasses
- Low Battery

- C** Flashes on screen - Battery is charging

- F** Appears on screen - Battery is full

STROBE SPEED

+ - Strobe Speed. Press to reduce the rate of the strobe effect (slower=harder). There are 8 levels.

CHARGING

The USB cable can be plugged into a computer USB port or a standard wall outlet / power strip.

The micro USB connection plugs into the VAPOR STROBE directly under the display.

*Battery lasts approx. 12-16 hours of use.

THE BASIC DRILL

There are dozens of drills already available, with virtually unlimited use for the Vapor Strobe to be integrated throughout sport training where vision is important.

- Without the Vapor Strobe eyewear, play catch with a tennis ball. **5** throws.

- Put on Vapor Strobe eyewear, **15-20** throws while increasing difficulty of Strobes.

- Remove Vapor Strobe eyewear, **5-10** throws.

You'll feel like the ball is moving in slow motion. This is because your brain has been tuned up to better anticipate what's coming next, forcing you to keep your "Eyes on the ball".
